EDUCATION

B.Tech in Computer Science and Engineering (IoT)

Swami Keshvanand Institute of Technology, Jaipur

2023 – Present

CGPA: 9.7/10

Senior Secondary (Class XII — Science)

Sophia Sr. Sec. School, Kota

2022

88.4%

Secondary (Class X)

Sophia Sr. Sec. School, Kota

2020

93.8%

TECHNICAL SKILLS

Programming Python, C, C++, HTML, CSS

Databases MongoDB, SQL

Backend FastAPI

Concepts OOP, DSA, DBMS, Computer Networks, OS, Problem Solving

Tools VS Code, GitHub

INTERNSHIP EXPERIENCE

Python Full Stack Intern — Cynbit Technologies, Jaipur

Jun 2025 – Jul 2025

Worked on full-stack web development using Flask and MongoDB

[View Certificate](#)

- Developed backend modules using **Python Flask** with database integration using **MongoDB**.
- Implemented CRUD operations, routing, authentication, and dynamic data handling features.
- Collaborated on project development using Git and followed structured software development practices.

Web Development Intern — KistechnoSoftware, Jaipur

Jul 2024 – Aug 2024

Worked on responsive frontend web development projects

[View Certificate](#)

- Developed responsive web pages using **HTML**, **CSS**, **Bootstrap**, and JavaScript.
- Improved webpage responsiveness and UI structure for better user experience across devices.
- Gained practical exposure to frontend workflows and professional coding standards.

PROJECTS

Life Connect — Blood Donor Finder

[GitHub](#)

Full-stack web application designed to connect blood donors with recipients through location and blood-group based search.

- Developed the backend using **Python Flask** and integrated **MongoDB** for efficient donor data management.
- Implemented secure user registration, login authentication, and dynamic donor filtering based on city and blood group.
- Designed a responsive and user-friendly interface to simplify emergency blood donor discovery and communication.

Portfolio Website — Cloud-Based Deployment

[GitHub](#)

Personal portfolio website deployed using AWS cloud services with a serverless architecture.

- Deployed the frontend application using **AWS Amplify** for automated hosting and continuous deployment.
- Implemented a contact form workflow using **AWS Lambda** to process user submissions without managing servers.
- Utilized **Amazon S3** for storing static assets and project-related resources.
- Monitored application logs and request activity using **Amazon CloudWatch** for debugging and performance tracking.

CERTIFICATIONS

- Oracle AI Foundations Associate [🔗](#)
- Certified SOC Analyst — EC Council [🔗](#)
- Cyber Job Simulation — Deloitte
- Generative AI Fundamentals — Databricks
- Summer Internship — Indian Railways (DRM Office, Kota)

ACHIEVEMENTS & EXTRACURRICULAR

- Core Team Member — Pravah'26: Managed 10–20 coordinators in a fest with 5000+ attendees.
- Core Team Member — ICI Fest: Led Walkathon (900+ registrations) and Industry Carnival; liaison with Bureau of Indian Standards (BIS). [🔗](#)
- Coordinator — Jenga Palooza: Managed event logistics; recognised for execution under pressure. [🔗](#)
